

Participants, 2016 pilgrimage

## What participants of Spiritual Pilgrimage 2017 have to say.....

I loved the Beyond Imagination pilgrimage to the Himalayas with Pandit Dabral! wanted to take this trip for a long time, especially since it was where Swami Rama spent a lot of time. Much gratitude to the leaders, drivers and cooks, they all made it so enjoyable!

It was a great experience. Very well organized and memorable pilgrimage, would like to go again. I would not have wanted to change or have missed any part of the trip. I would only ask for more!

This was a wonderful adventure! The mouth watering food, and the variegation of the treks, temples, animals (monkeys, bulls and goats, oh my!) and glorious landscapes & whispy waterfalls were awe inspiring! The spiritual instruction & practices instilled absolute stillness. .

I thought the pilgrimage was extremely well planned and executed. It truly was an experience I can never forget. The cooks, the drivers and the ShriRaam staff were thoughtful and responsive to the traveler's needs. I would highly, highly recommend this trip to others.

I had a wonderful trip and will forever cherish those great memories of the Himalayas. Overall it was a very well thought out trip. Logistics are not easy in India. The food the drivers everyone was extremely professional.

I felt especially blessed to travel with Panditdabralji, PanditTejomayaji, and Bholaji. It made everything more meaningful as the purpose and intent was discussed during satsang.

Food was so very good, kudos to the cooks - those hearty souls who even cooked outside when necessary, and to the drivers who stayed with us all the way up the mountain and all the way down, ready to load and unload baggage, nothing left to chance, there to help in whatever way they could. Need water, look and there it was. All wonderful memories that will never be forgotten.

Months before the trip I texted Pt. Dabral and mentioned the price of the trip, something like "wow so much more than I expected", especially compared to years ago. He replied, yes things have gone up everywhere and this is a first class trip. And indeed it was. Half way through the trip I began wondering how you could provide all you did and do it first class as you did.
